

User manual

Heartware The Game

Made possible by:

Hi players,

Welcome to the user manual of Heartware the Game. This manual will help you with some technicalities around playing the game and using the Galaxy tab. We will discuss 3 basic FAQs:

- A. How to start playing
- B. If there is no Wi-Fi
- C. If the game stalls

*Important note, please do **recharge** your device **daily** if you plan to play every day.*

How to start playing

Step One

This arrow directs you to the power button of the device. Tilt the device to the side to find it.

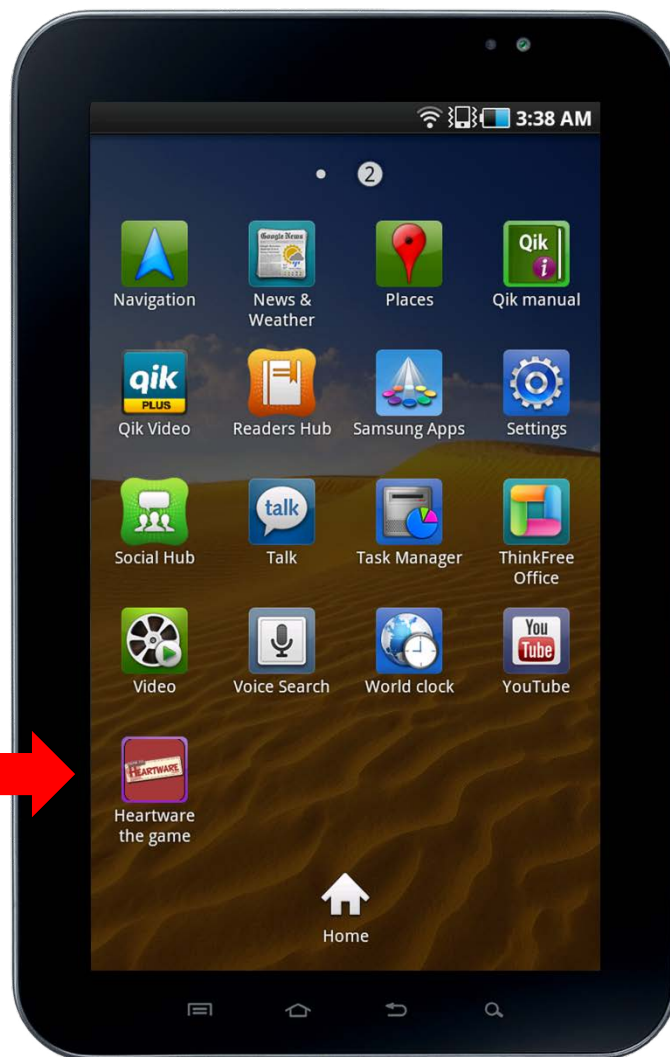

- A. Press the button for $\pm$ 3 seconds to start or shut down the tablet completely.
- B. Press the button once to take the device out of sleep mode or put it to sleep.

Step Two

Tap this button to go to *Applications*

Step 3

Tap the Heartware the Game icon.

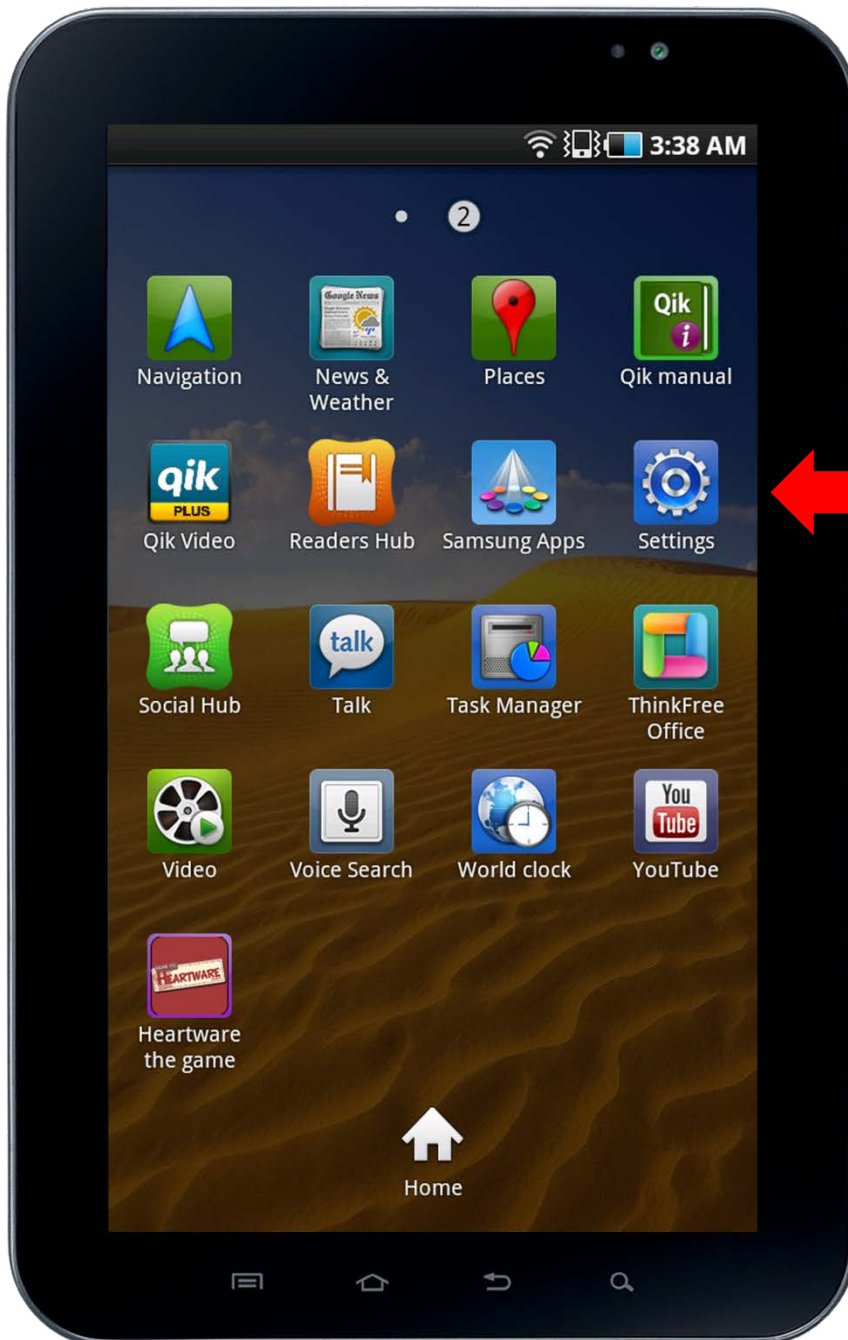

And you will be directed to the LOG IN screen.

If there is no Wi-Fi

If you're planning to play Heartware the Game in an area without Wi-Fi access, you will need to log in before leaving the Wi-Fi zone.

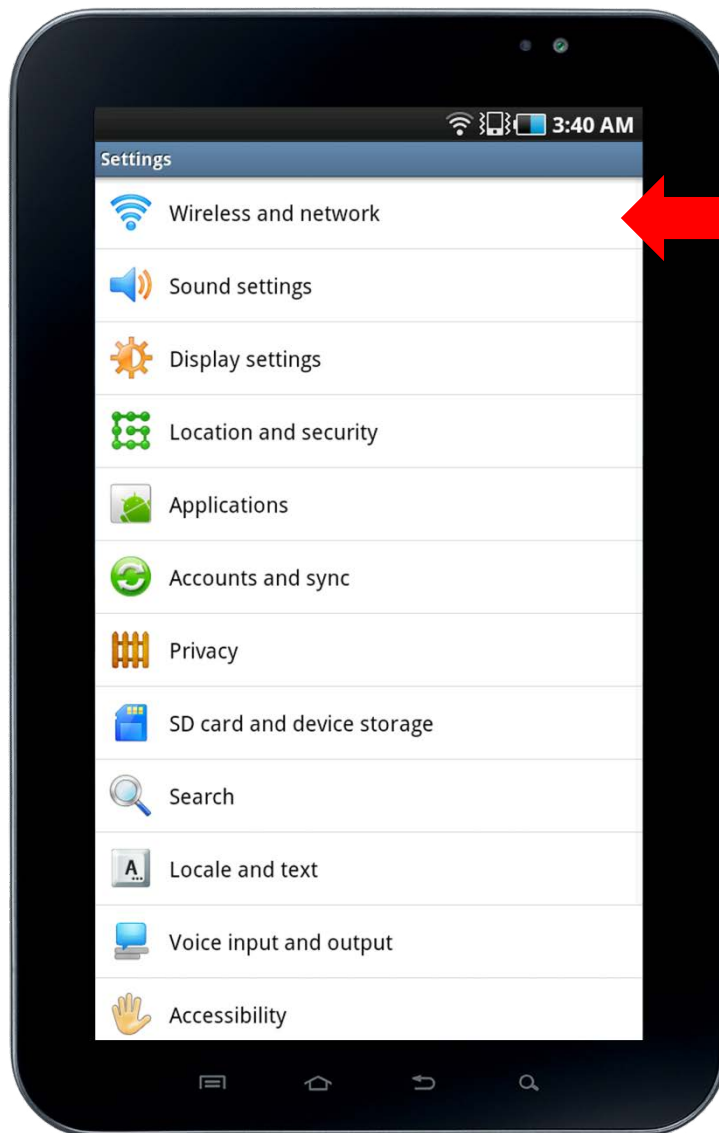

If you're within a Wi-Fi zone and you cannot access it, try the following steps.

Step 1

At the 'Applications' screen, tap the Settings icon.

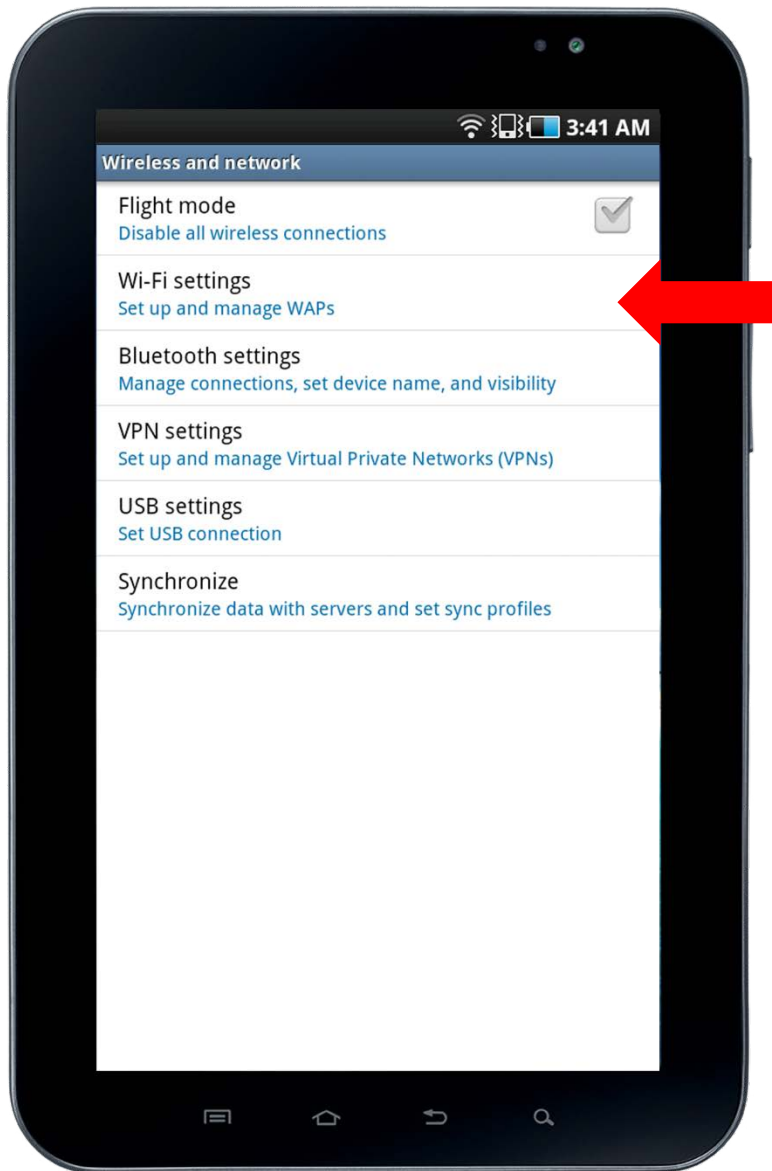

If there is no Wi-Fi (con't)

Step 2

Select Wireless and network by tapping on it

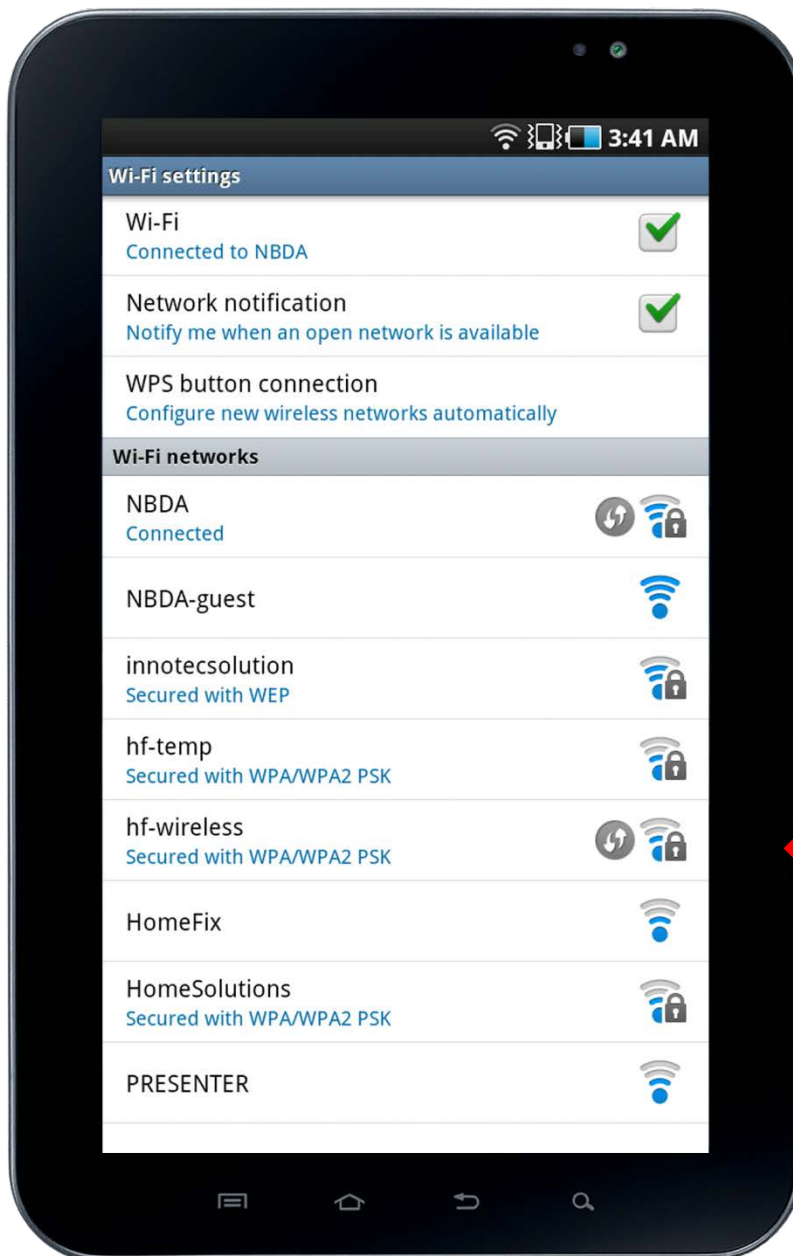

If there is no Wi-Fi (con't)

Step 3

Select Wi-Fi settings

If there is no Wi-Fi (con't)

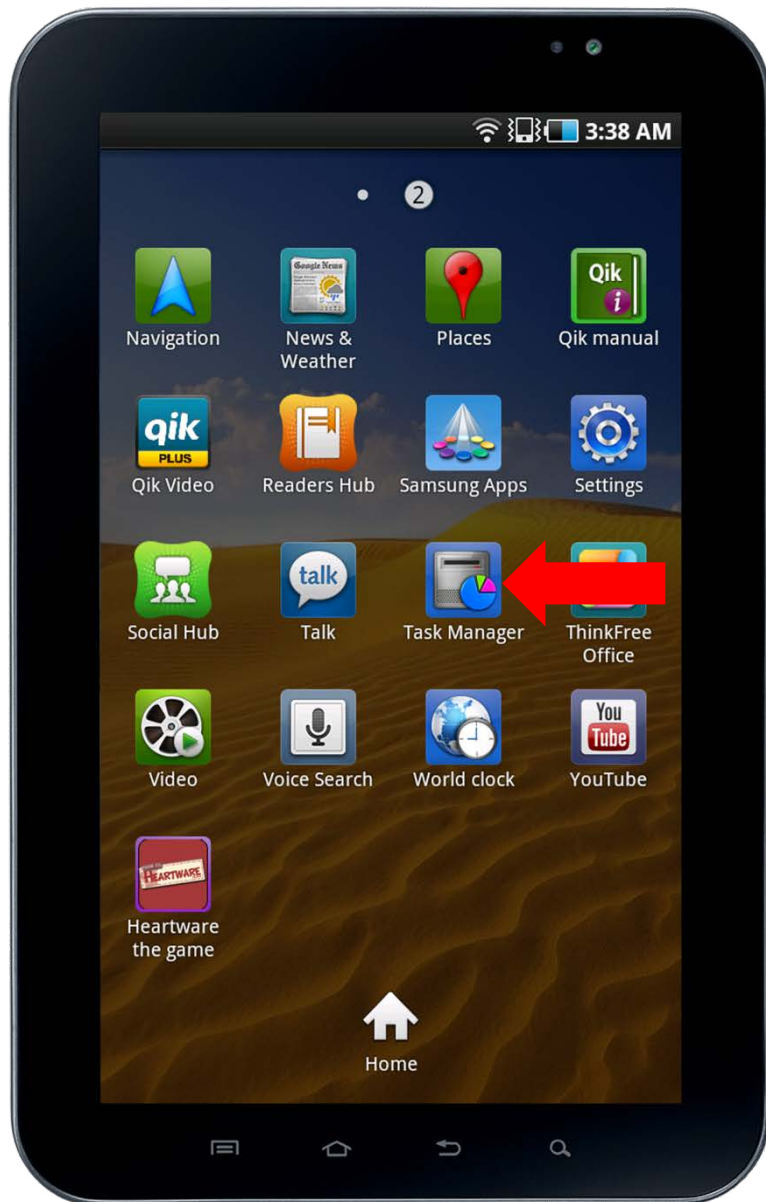

Step 4

In the Wi-Fi settings, if Wi-Fi and Network notification are selected, you should have internet connection, please log in again.

If not, select your preferred Wi-Fi network.

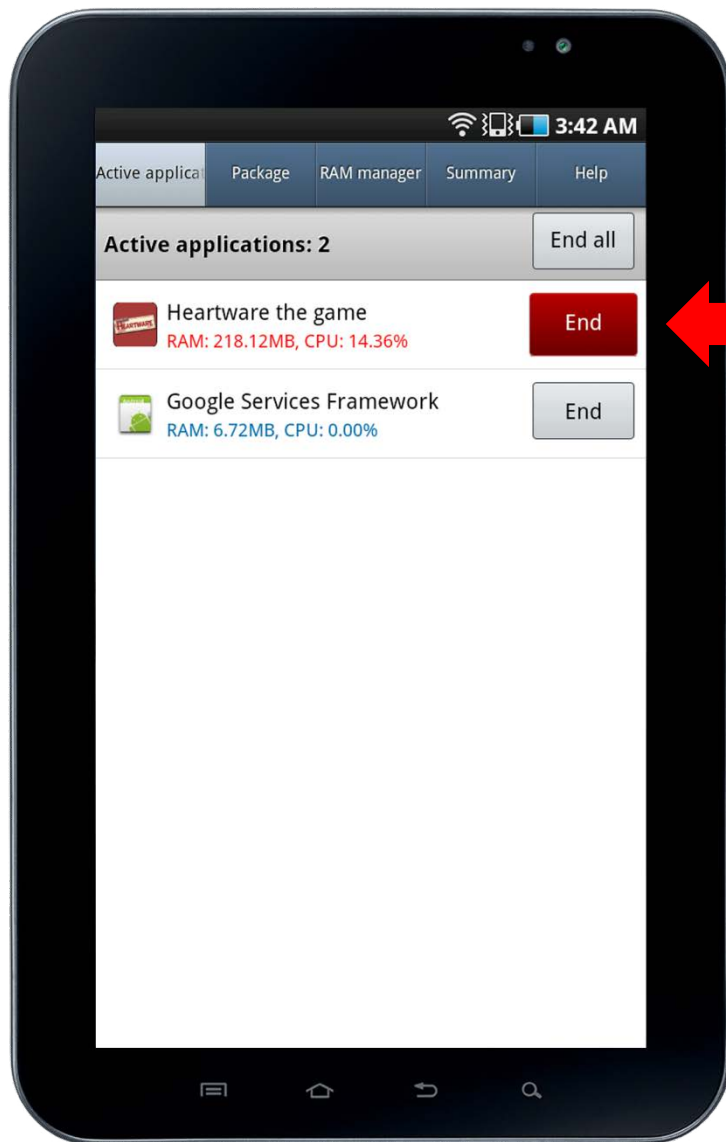

If the game stalls

Step 1

Tap on 'Task Manager'

If the game stalls (con't)

Step 2

Tap End at Heartware the Game

And tap 'HOME' again to return home to start applications.

Now you can restart the game as usual.

We at NBDA Asia, hope this user manual will help you overcome some challenges you might face.

If you have any other questions or feedback on the game, please contact us at:
